

# Simplify and automate financial processes in SYSPRO

## Move beyond Excel and drive performance

### Prophix delivers value to SYSPRO customers

Prophix develops innovative software that automates critical financial processes such as budgeting, planning, consolidation, and reporting—improving a company's profitability and minimizing their risks. Prophix provides the right balance of simplicity and depth, delivering Corporate Performance Management (CPM) software that is easy, powerful, and collaborative. Thousands of forward-looking organizations in almost one hundred countries use software from Prophix to progressive increased visibility and business performance insight.

### Seamless integration with SYSPRO

Prophix software is built to integrate easily with a variety of databases, flat files, external data sources and other formats including direct access to the SYSPRO ERP system. Prophix's data integration features a simple interface, which any business user can master without relying on IT assistance. This allows SYSPRO users to effortlessly move data into pre-built models in Prophix. Using open database technology, our software maximizes collaboration across report publishing, data entry and workflow processes, and since our product is built on the Microsoft SQL platform, SYSPRO users will be comfortable with the familiar interface.
